Come to the studio for a fun afternoon of linoleum block printmaking! Learn about the art of relief printing and how to create your own “plate” to make multiple prints suitable for greeting cards, small wall art or gift tags. Begin with developing your own personal image in pencil, transfer it to a linoleum block and then carve your design with special carving tools. Print your design on a range of beautiful papers ranging from colored fine art paper, rice paper, patterned collage paper and stationary.
